

Context of the Organisation

MAXFELD Stanzbiegetechnik GmbH & Co. KG is deemed a medium-sized enterprise. Technologies and core competences focus on the production of punching and punching-bending technology products and surface degreasing of metals, including any up- and down-stream processes that require one complete solution.

Company Policy

The quality of our products is the key to reliable customer connections. In order to achieve this, we not only review finished products, but monitor every single step of all persons and departments involved, based on creation processes already.

Our future vision – investment and innovation – ensures that we can continue to keep up with the rising requirements and technologies. MAXFELD is obligated to consider this under observation of legal obligations, applicable requirements, protection of the environment and any natural resources within the ecological balance.

We apply a continuous improvement process to promote the quality and environmental awareness of our employees. Preservation of health protection and industrial safety, and sensitive handling of faults are the basis for this.

With technical competence and a friendly attitude, our highest goal is absolute customer satisfaction in all matters of quality, delivery compliance and availability of problem solutions.

Target-oriented work by responsible employees enables us to practice DIN EN ISO 9001 and IATF 16949 as well as the requirements of DIN EN ISO 14001.
